EDUCATION

Universidad del Pacífico   **Lima, Peru**
BSc Economics   July 2021 – Expected July 2026
- o   Specializing in Machine Learning to optimize decision-making through predictive analytics.
- o   Ranked in the top 20% of my program, excelling in quantitative, programming and economics courses.
- o   Conducted data-driven econometric research into financial markets, consumer behavior and industry competition.

University of London – London School of Economics   **Lima, Peru**
BSc Economics and Finance   January 2024 – Expected July 2026
- o   Selected for this dual degree program with the London School of Economics (7th best Economics program worldwide) from over 900 students, through a process evaluating academic excellence and interview performance.
- o   Achieved First Class Honours (the highest distinction attainable in the English grading system).

VOLUNTEER WORK

180 Degrees Consulting (180DC) – World's largest consultancy for social organizations   **Lima, Peru**
Analytics Consultant   June 2024 - Present
- o   Collaborated with a multidisciplinary team to enhance operational efficiency for Practimatch, an AI-driven startup.
- o   Automated 3 critical workflows using Python, resulting in 100+ hours of monthly time savings for our client.

CERTIFICATIONS

Financial Engineering and Risk Management Specialization   **Lima, Perú**
Columbia University Online   March 2024 – December 2024
- o   Priced fixed-income securities and derivative instruments such as Bonds, Options, Futures, Forwards and Swaps.
- o   Constructed optimized portfolios through Mean-Variance Analysis, Capital Asset Pricing Model and Value at Risk.
- o   Conducted simulations in Excel and Python to simulate risk scenarios and refine financial models.

Machine Learning Specialization   **Lima, Perú**
Stanford University Online   March 2024 – December 2024
- o   Built predictive models using linear regression, logistic regression and neural networks, all implemented in Python.
- o   Implemented unsupervised learning techniques, such as clustering, anomaly detection, and recommender systems.

Finance in Google Sheets Certification   **Lima, Perú**
DataCamp   July 2024 – November 2024
- o   Developed an interactive graphical dashboard in Google Sheets to facilitate real-time tracking of financial assets.
- o   Mastered financial modeling techniques for effectively analyzing cash flow, investments, and stock prices.

Data Scientist Certification   **Lima, Perú**
DataCamp   January 2024 – October 2024
- o   Completed 90+ hours career track, mastering Data Analysis, Experimental Design and Machine Learning models.
- o   Developed 7 real-world projects in Python and R, providing actionable insights based on in-depth data analysis.

IELTS C1 Certification   **Lima, Perú**
IELTS – British Council   March 2023
- o   Achieved an overall IELTS Band 7.0 demonstrating advanced English proficiency.

SKILLS

- **Advanced Python:** Expertise in data analysis, predictive modeling and visualization using Pandas, Seaborn and Matplotlib.
- **Advanced R:** Proficient in statistical analysis, hypothesis testing and creating data-driven visualizations.
- **Advanced Microsoft Office Suite:** Proficient in Excel worksheets and Power Query for data analysis and manipulation.

ADDITIONAL INFORMATION

- **Blog:** Author of a blog dedicated to sharing knowledge on data analytics and statistics. Check my blog.
- **Interests**: Passionate about the transformative role of machine learning in different areas. I believe in making decisions grounded in statistical and predictive analysis, rather than relying on surface-level patterns. Check my website.
